Abstract (en)
[origin: WO0156755A2] The invention relates to an agent for protecting a material, especially a wood protection agent. The inventive agent is based on a polymer or resin, with a waterproofing agent and filler particles which are dispersed in said resin or said polymer. The invention also relates to bodies consisting of wood which have been treated with the wood protection agent and to a method for protecting materials that are sensitive to the weather, especially wood.
