Abstract (en)

[origin: WO0140067A1] The invention relates to a flexible container for packaging, transporting, storing and distributing product packings, especially product packings of medicaments. Said container comprises a bag defined by a tubular wall (2, 11), closed at its bottom and provided at its top with an overlapping tongue (3, 12) that closes on the top of the bag. At least one of the overlapping parts is linked with a top strip (4, 5; 13) that consists of a rigid material.
