Abstract (en)

Plant for manufacturing containers for housing products. The containers are, in particular, in the form of rigid baskets, made of plastic material, destined to house or contain fruit and vegetable product, wherein a sheet (15) made of soft material is provided, preferably in the form of a portion, made of plastic material, having swollen cavities (19), able to define means for dampening the contact of said produce. The plant comprises, among the means for forming the containers and the separating means, an apparatus (10) for readying said lining portion inside said containers (1).
