Abstract (en)

[origin: EP1256446A2] The sheet-holder systems (9) are situated in the front and back parts and can be adjusted in relation to each other in a peripheral direction. The sheet-holder system for the front part has a storage drum basic body (11), and the sheet-holder system for the back part has a fixable and movable central axle (14) for the storage drum's basic body. The central axle is joined to the sheet-holder system by the side disc of the storage drum's basic body.
