Abstract (en)

[origin: EP1256682A1] The hinge fitting for a tilting pivoting door or window leaf (3) has an angle bracket (4) with a section fixed on the leaf (6) and a second section (8) on the outer frame (10), defined by a support plate (11) and a fixing plate (12). The support plate is fixed by screws to the fixed outer frame and fits into a U-shaped groove (18.18A) formed into the upper or lower cross member of the frame. The plate can have formations to engage with complementary formations (22,22a) in the groove.
