Abstract (en)

[origin: EP1257002A2] A complex-shaped modular terminal board having a number of contacts (2) oriented in a number of non-coincident directions, and at least two distinct modular members (3, 4) connectable both mechanically, by means of first reversible fast-fit fastening means (5, 8), and electrically; the modular members (3, 4) having respective conducting elements (2, 10, 11, 16) connected directly when the modular members (3, 4) are connected mechanically. <IMAGE> <IMAGE>
