Abstract (en)

[origin: EP1258327A2] Slicing machine (10) for slicing food (26), especially animal products, in the form of tubes comprises a slicing device (32) and a feed channel (24) for feeding the food to the slicing device. A store (18) provided for the food is arranged upstream of the slicing device in the processing direction. Preferred Features: A cooling device (35) cools the contents of the store. A cooling store (16) is arranged between the store and the slicing device in the processing direction.
