Abstract (en)

Apparatus for stretching web products, comprising means which act upon the longitudinal edges (30) of a moving forward product (3) to perform the stretching thereof. Said stretching means comprise one element (1) with two portions (10) joined to each other without solution of continuity and acting upon the edges (30) of the advancing product (30): the said portion (10) of the element (1) being driven into motion with centrifugal direction (G) with respect to the product's edges. <IMAGE>
