Abstract (en)

[origin: EP1260639A2] The wall mounting for a bathroom fitting, at a mounting frame (2), has a connecting rod (3) and a mounting (4) at one end of it. At least the connecting rod has a push fit into the mounting to lock them together. The connecting rod is held in place by a clip nut (8) at the mounting, to give a rapid installation with a coarse setting for the mounting height, and allow for later fine adjustment. A wall cladding (7) is fitted over the mounting.
