Abstract (en)
[origin: EP1260685A2] The container comprises a coolant reservoir (11) with connection to a radiator, an overflow reservoir chamber (15) as well as a further third chamber (16) having at the geodetic lower end an opening connecting to the overflow reservoir which in turn is connected to the first coolant reservoir through an excess pressure valve (20). The excess pressure valve is set in the closure cap of the radiator.
