Abstract (en)

[origin: EP1260763A1] A circular reinforcing washer with indents (9) is glued to the suspended ceiling (4) and the ceiling is then cut away around inner washer and indent surface to allow entry by a spotlight collar. The spotlight collar has lugs (8) which slide through the washer indents and grip the ceiling after the collar has been pressed in and twisted. Collar shoulders (3) grip the reinforcing washer to complete the fixing and the bulb clicks (10) into the collar
