Abstract (en)
A compact terminal board for an electric motor, having a supporting body (12), a number of electric supply contacts (14), and an electric ground contact (13). Each of the electric supply contacts (14) includes a blade having a supporting portion (14a), at least a first longitudinal extension (14b), and two opposite lateral extensions (14d); the first longitudinal extension (14b) and the lateral extensions (14d) being bent substantially at right-angles on the same side of the supporting portion (14a) to form respective utility terminals. <IMAGE> <IMAGE>
