Abstract (en)

[origin: WO0160630A1] The invention concerns a method for producing an image in the edge of a volume of paper sheets. The invention can be used for numerous stationery products, note pads, exercise books and the like. In the present invention the images are printed not on the edges but on the paper surface. The method comprises several processes: printing, resetting, guillotining. The invention also concerns the insertion of a segmented image systematically in edges and added in the make-up of a volume, for use in a complex technological process.
