Abstract (en)

[origin: EP1264650A1] Pressure casting machine comprises a machine stand (1) with a casting nozzle (12) and a mold closing unit (5) consisting of a cross head (6), a fixed clamping plate (11) and a moving clamping plate (9). The mold closing unit is arranged on a guiding surface (4) which is slanted on the machine stand. The guiding surface is part of a lifting frame (2) which is vertically arranged on the stand. Preferred Features: The lifting frame is height-adjustable using two lifting pairs (13, 14) arranged in the form of a parallelogram. The lifting pairs are moved using a common drive (17, 18).
