Abstract (en)

An automatic machine for dispensing industrial products, such as tools and other devices or accessories for individual protection (individual-protection devices < &tilde >IPDs), designed to record the data of each individual withdrawal of material (date, time, matriculation number, product withdrawn) by using electronic keys or company badges to be inserted in special readers (16) set on board the machine; in this way, the availability of the products is ensured at any moment, and the operating, bookkeeping and financial management of the product stores is totally eliminated.
