Abstract (en)  
[origin: EP1265033A1] The gas turbine combustion chamber has internal (28) and external walls (26) formed of composite material and a metal base (30). The walls and base are connected by flexible metal tongues extending between fixings (46,48) on the composite walls and further welded points on the base. The base also has a sealing gasket (92,94).
