Abstract (en)

[origin: DE10127997C1] The device is in the form of a clamping holder (5) with a holding slot (6) for the plate-shaped bearer (4) and can optionally be combined with a supporting foot (16) for use as a desktop device or with a wall holder for wall mounting. The bearer has conducting tracks leading to key pads, sensors and/or light units and several contact tongues for connecting the tracks to a plug strip.
