Abstract (en)

[origin: WO0167928A1] In a method of encouraging a person to use dental floss, the person is educated that using dental floss promotes a healthy tooth. Dental floss is provided in a container (10) having a shape, and color that signifies a healthy tooth (20)(30). In some aspects the dental floss container (10) has a shape of a tooth (20)(30). Alternative containers (10) may have a shape of dentures (110). In further aspects, the dental floss is flavored with an aroma of a fruit, and the dental floss container (10) has a shape of the fruit (Figs. 3a-3f).
