Abstract (en)
A mark transfer tool making use of a coat film transfer technology about various marks composed of characters, codes, patterns or their combination. A mark transfer tape (T) is composed of pressure-sensitive adhesive transfer marks (M) disposed and held on the surface of a base tape (15) continuously and peelably at specific intervals. Therefore, various marks can be used in a completely different method from the conventional mode of impressing use in the form of a stamp or adhering use in the form of a mark seal and the like, so that diversified preferences of general users can be satisfied effectively.
