Abstract (en)
[origin: DE10013383A1] The invention relates to a fabric cover or a blanket (1). The electrostatic charge of said cover or blanket is prevented by means of electroconductive yarns (4) which are provided as filling and/or warp yarn (2, 3) at predetermined distances. The electric charge along the electroconductive yarns (4) is discharged. The electroconductive yarns (4) are twisted from a conductive yarn and a flame resistant modacryl yarn.
