Abstract (en)

[origin: WO0176728A1] The invention relates to a nozzle for foaming, spraying or atomizing especially liquid first media by means of a second, especially gaseous or gas-containing medium under pressure. The nozzle (1) has an outlet for the foam produced and comprises a housing (4) in which at least one channel (5, 5') extending radially, at an angle, tangentially, tangentially at an angle or perpendicularly tangentially inwards for feeding the second medium, and a first inlet (6) for feeding the media to be foamed are provided.
