Abstract (en)

[origin: EP1270261A2] The insertion process involves dividing the book block (1) into at least two outer part blocks and one inner part block by means of a dividing device. The marker tape, of preset length, is laid in the path of the inner part block transversely to the transporting direction (21). It is attached by a holding device directly adjacent to the path of the inner part block by a guide device.
