Abstract (en)

[origin: EP1271447A2] The arrangement has a transmitter (4.1,4.2) by the road that sends a signal corresponding to the maximum speed for the relevant section of road, a receiver (8) on the vehicle (6) that receives the signal from the transmitter, a warning device on the vehicle and a device for comparing the speed measured by the vehicle speedometer with the received signal and activates the warning device if appropriate.
