Abstract (en)

[origin: DE10130251C1] The switch housing has at least one guide (33) for a part (24) of the switch push-button (2), part of which forms the pin contact chamber (5) for at least one pin contact (39). The pin contact chamber provided a base plate (32) for supporting at least one electronic component (6,7) of the push-button switch. An Independent claim for a push-button switch is also included.
