Abstract (en)

[origin: WO0178998A1] The invention concerns a check list system for managing feedback data concerning the delivery of postal objects or messages delivered to their addressee in exchange for evidence of delivery, comprising delivery check lists for the delivery agents, consisting of a single sheet (1) whereof the recto includes, to be assigned to an object, a zone (10) subdivided into sections, whereof a stub (11) designed to remain on the sheet and to receive in print data concerning said object in code form, and a detachable section (12) serving two purposes: either to remain on the document as evidence of delivery, or to be detached therefrom to constitute non-delivery notice; and withdrawal order cards which are customised by affixing said non-delivery notice tag.
