Abstract (en)
[origin: US2002184696A1] A reinforcing strip for a goalkeeper's glove and including a plurality of compression-proof link members supported on a carrier band in a string-like manner, with each two adjacent link members forming a pivot connection with each other and having stop surfaces facing each other, extending transverse to the carrier band, and abutting each other in a stretched position of the reinforcing strip, with each of the link members having a cavity provided in a middle region of the link member and open at the upper surface of the link member, and a flat closed bottom surface glued to the carrier band and with two side regions located on opposite sides of the middle region and having a height gradually diminishing toward a respective outer edge of a respective link member, and with each of the side regions having a cavity open at the upper surface.
