Abstract (en)
[origin: WO0176816A1] The invention relates to a tool mounting, in particular, for a hand operated angle grinding machine (10), or a hand operated circular saw, comprising a mounting device (12, 14, 300), by means of which the inserted tool (16) may be operationally connected to a drive shaft (18) and a stop device (20), which may lock the drive shaft (18), during mounting or dismounting of the inserted tool (16), by means of an operating button (22). According to the invention, the operating button (22) is operationally connected to the driveshaft (18), in the direction of rotation (32, 34) and for stopping the driveshaft (18), by means of the operating button (22), at least one first piece (24), operationally connected to the driveshaft (18), in the direction of rotation (32, 34), may be connected to a second piece (26), which is rotationally fixed in relation to the axis of rotation of the driveshaft (18).
