Abstract (en)
A night-light with changeable color light, having a casing (10) with a non-transparent portion (11), a transparent portion (12) and a plurality of transparent windows. A luminous part (20) is provided under the casing, having a plurality of light cabinets (22,23,24,25) consisting of electro-luminescence panels with different colors of light. A rotating disc (30) and a power supply plug part (40) are provided under the light cabinets (22,23,24,25). A power output socket (50) is provided on the upper side of the casing (10), which casing (10) engages a rotating disc (30). The luminous portion (20), power supply plug (40) and the power output socket (50) engage each other, and are stationary. When the casing (10) is rotated, the transparent portions (12) of the casing (10) can be located above a selected light cabinet (22,23,24,25) with the desired color light.
