Abstract (en)
[origin: WO02068237A1] The invention relates to a headrest (1) for a vehicle seat, in particular for a motor vehicle seat, with a first assembly for contact with the occupant's head and a height-adjustable second assembly (25, 41), in which the first assembly (101) moves forward relative to the second assembly (25, 41) in the case of a crash, whereby a third assembly (15) on the headrest (1) is provided beneath the second assembly (25, 41) relative to which the first assembly (101) moves upwards in the case of a crash.
