Abstract (en)
[origin: DE10135215C1] The heating radiator (1) has 2 heating plates (2,3) provided at their corners (4) with openings (5) for connection with identical double-T connection fittings (6,6a) with vertical and horizontal pipe sections, providing flow connections between the heating plates. The double-T connection fittings have threaded connectors at the connection points between the vertical and horizontal pipe sections for incorporation of valve, blocking or emptying inserts, the hot water feed and return connections (V,R) for the radiator offset from the center plane in the direction of one or other end of the radiator and connected to the base of different heating plates.
