Abstract (en)
[origin: WO0185087A1] The invention relates to a bath lift for lifting and lowering people, for example from and into a bath, comprising a bottom plate (1) and a seat element (9) that can be displaced relative to said bottom plate. The inventive bath lift is further characterized in that the seat element (9) can be displaced linearly relative to a base support (5) and that the latter can be pivoted relative to the bottom plate (1).
