Abstract (en)
[origin: WO0179070A1] A consolidation container (10) includes a back wall (12), side walls (14, 16), and a front wall (18) each comprising pockets (66) which receive stiffening panels (68). The front wall (18) has an openable center portion (30) which provides access to the interior of the container. Support members (72) are positioned in the corners (70) of the container to facilitate stacking. A top (56) normally overlies the wall to close the container and is fully openable to provide access to the interior thereof.
