Abstract (en)
[origin: WO0167356A1] A system and method which allows third-parties to monitor company inventory via the Internet and Worl Wide Web ("web") and automatically order needed items. The present invention also provides a forum through which resellers and customers may directly interact to resell surplus and used equipment. The present invention may also allow a third party to act as a broker, thereby assuring that both equipment purchased is actually delivered, and that the seller is properly compensated.
