Abstract (en)

Domestic dishwasher machine, with a front door (3) hinged at the bottom wherein, in addition to an upper rack (11,12), with a vertical position which can be modified, and a lower rack, both removable from the washing chamber, it has an additional auxiliary basket (10), housed in a counterdoor recess and supported by support means other than the upper and lower racks, like, amongst the different possible solutions, the stop heads (23) of the sliding guides (13) for supporting the upper rack (11), so as to make the position of the auxiliary basket (10) independent from the vertical position of the upper rack. <IMAGE>
