Abstract (en)

[origin: EP1281627A2] Seal/container combination comprises a closing cap part (1) mounted on a container part (2) having an opening (3), and gripping elements (6, 14) arranged on the cap part and the container part. The gripping element on the cap side is arranged on a peripheral wall region (9) left open in the peripheral wall of the cap part and connected to the peripheral wall via retractable rods (12).
