Abstract (en)

[origin: EP1281819A1] A vaulted cover structure made of key-pattern pressed steel sheet comprises at least one element (1) coupled, at both ends, with means (4, 5) for supporting the element and mounting it onto a structure to be covered (6). The cover structure also comprises tightening members (2) arranged to keep, pre-tighten and adjust the curvature of the element(s) (1) and secured at each end to anchoring means (3) integral with the lower face of the respective element (1), externally to the supporting means (4). <IMAGE>
