Abstract (en)
[origin: WO0130587A2] The invention relates to a collectalbum (1) and is in a suprisingly way very representative and professionally readjustable and consists of a first (2) and a very special second (3) back element in U-shape, by which the first back element (2) is integrated in the cover consisting of a first back element (2) and boards (4) and a second (3) back element formed into binding-strip-mounting-elements in U-shape with mechanical locking devices (5, 6, 7) for binding strips (8) of sheets (9) by which all mutual connections are executed with double-sided adhesive tape (15, 16, 17).
