Abstract (en)

[origin: EP1285734A1] A hand held dual purpose hair removal and skin lubrication device has a U-shaped resilient body (10). One leg (10a) of the U fits the user's thumb, and the other leg (10b) of the U fits one or more opposing fingers. The device can be manipulated to expel lubricant from an internal reservoir, or to operate only the razor head (14). Both the razor head and the lubrication can be done in a third mode operation.
