Abstract (en)

[origin: WO0188357A1] The invention relates to a device and to a method for filtering a value. A first filtering device produces an output value depending on an input value, said first filtering device being characterized by at least one retarding effect. The input value of the first filtering device is corrected by means of a correction value that is obtained on the basis of the input value of the first filtering device by filtering by means of a second filtering device.
