Abstract (en)
[origin: EP1287797A2] A hospital medical set (2) secures and provides hygiene protection for skin perforations with a gastro-probe or catheter. The medical set comprises a compress (12), a probe- canule- or catheter exit-plaster with an aperture (24) for the probe; canule or catheter with egress fixing agent (18), plus an information tag (22) with two detachable sections. <??>The tag (22) has an information bearing surface, a non-separable information layer, two detachable layers and a self-adhesive layer. The set is supplied in a container (4) with a closure (2).
