Abstract (en)
[origin: EP0940534A2] A theft-prevention device for boat propulsion equipment comprises a key 81 having a characteristic identification code, a reader 82 on the propulsion equipment and a controller 83 for comparing the identification code with a code prestored on the propulsion equipment. As there is no battery on the propulsion equipment, a manual power generator (G) is provided for generating the electric current required for identifying the correct key by the controller. <IMAGE>
