Abstract (en)  
[origin: WO0192476A2] The invention relates to agents and methods for analyzing and diagnosing human or animal infections caused by pathogenic and/or parasitic microorganisms, to agents and methods for analyzing and diagnosing degenerate or genetically modified human or animal cells, to agents and methods for examining and testing antiinfectives and medicaments for combating tumors and to three dimensional <i>in vitro</i> organ and tissue test models, especially for tissues which are susceptible to infections, such as intestine, skin, cornea, trachea and mucosa tissues.
