Abstract (en)

[origin: WO0194239A1] The package comprises a primary package element (3) for accommodation of the product (1) together with at least one secondary package element (4) for accommodation of accessories of the product. The primary package element (3) comprises two tubular stiffening parts (5, 6) each having a cross section essentially corresponding to that of the package and being placed at a mutual distance in the longitudinal direction of the package. The primary package element comprises a transparent part (7) surrounding the tubular parts over the entire length of the package such that also in packed condition, it will be possible to see the product.
