Abstract (en)
[origin: DE10138813A1] The kit comprises a first tunnel module (19) with two opposing side walls and a second level module with three adjoining and essentially closed walls (7) at an angle to each other. Facade wall sections (12) are used to cover the open sides of the level modules. Each module has at least two walls extending the height of the building level and a ceiling section (8).
