Abstract (en)

[origin: EP1295806A2] The pack has a first container (1) and a closing element (8), the edge (20) of which snaps onto the top edge (2) of the first container. It can only be removed after the tear-off element (6) has been torn off. The tear-off element is integrated into a protective element (4) in the top edge of the first container. The closing element forms a second container.
