Abstract (en)

The connector assembly includes a first connector (10) with female terminals (10e), upstream from a power supply (2) in a circuit for vehicle electric equipment. The assembly includes a second connector (11) with male terminals (11d), downstream from the power supply in the circuit. The second connector is mated with the first connector. The first and second connectors include a connector connection interconnecting the power supply and a load (6). <IMAGE> <IMAGE> <IMAGE>
