Abstract (en)
[origin: EP1298068A2] The closure, e.g. for reinforced paper or plastic industrial bags, consists of a film strip (9) with an adhesive coating (10) on one side to fasten it permanently to a first part (12) the bag, and a different adhesive coating (11) on the other side to attach it to a second part (13) of the bag, allowing it to be opened and closed at least ten times. The first part (12) of the bag is located at a distance from its open end (7), while the second part is on a folded edge (20).
