Abstract (en)
Mobile separating wall is constructed from a combination of several removable wall elements in the form of air cushions (1) filled with gaseous medium. <??>Preferred Features: The air cushion has a frame (10) at least on the upper and lower sides to increase the rigidity and stability of the air cushion, especially in modular arrangements. A press fastener system is provided on the front side and/or the rear side of the air cushion so that adjacent air cushions can be removably connected to each other.

Abstract (de)
Mobile Trennwand, die durch eine Aneinanderreihung mehrerer entfernbarer Wandelemente aufgebaut ist, wobei jedes Wandelement in Form eines mit einem gasförmigen Medium zu befüllenden Luftkissens (1) ausgebildet ist. <IMAGE>
