Abstract (en)
[origin: EP1298762A1] The double wiring connection has two superimposed levels. There is a first wirer of casing type (4) holding a wire (5) with a grip/release section (3) which is accessible from the front panel of the unit. The second wirer is a rapid connection wirer with a flexible element (6) without a grip unit. The second wirer is placed between the front face and the casing unit.
