Abstract (en)  
A washing machine for drinking vessels comprising an outer cabinet, an inner wash tank forming a washing compartment, a door providing access to the washing compartment, a generally rectangular rack supported within the washing compartment and having a base and walls, and a spray arm mounted above and below for spraying water on vessels held in the rack, wherein the rack is divided transversely and parallel to the door into a number of lanes each for holding a number of vessels arranged side by side, and wherein the base of at least the lanes closest and furthest from the door are inclined such as to tilt vessels held therein. <IMAGE>
